### STEP 1

Attach boxes together, by poking a hole in the bottom of one box, and the lid of another and attach together with a brad.

### STEP 2

Once all boxes are attached together in a stacked tower, set aside. Cut (12) 3 3/4 inch squares from the patterned papers. With the Corner Chomper, round each corner of the 12 squares.

### STEP 3

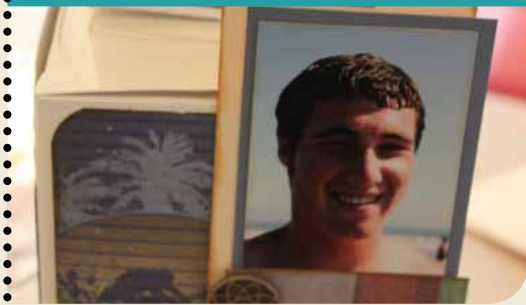

With the Sweetheart Inker, ink edges of all 12 squares. Adhere squares to sides of all 3 boxes and the very top lid.

### STEP 4

Ink the edges of the shipping tags. Create little works of art on each tag, using photos, jumbo brads, little bits of patterned paper, stickers, layered letters, and tags.

### STEP 5

Varying vertical and horizontal positioning, attach the tags to sides of boxes.

### STEP 6

Because of the brads, you can twist the boxes to change things up a bit.
